

VILLA AGAPE

GREECE | SANTORINI

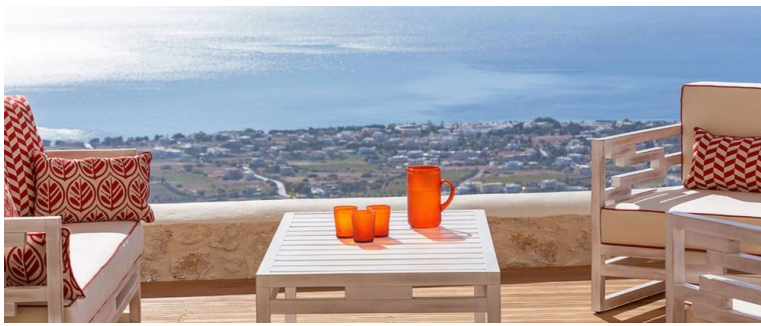

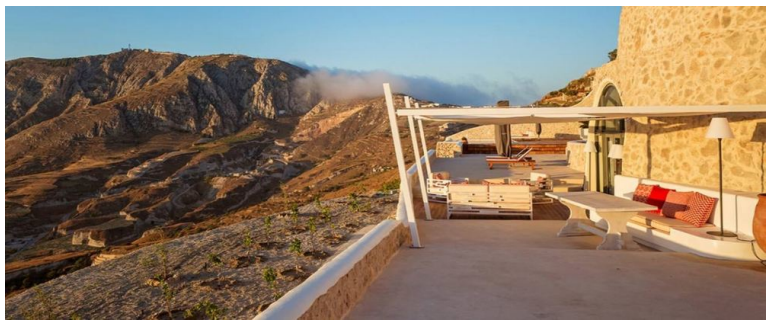

2 Bedrooms

4 Guests

£3565 - £8935 / week

"Dramatically set on a hilltop affording a breathtaking vista over the sea, the caldera and the amazing sunsets, this villa is a 2-bedroomed romantic retreat with pool and heated Jacuzzi on the island of Santorini".

Two old kilns were totally restored and rebuilt in 2014 with respect to the Cycladic architecture using eco-friendly materials. Elements of the kilns have been incorporated into the design and the big kiln is now the kitchen and the living room which the small kiln became a designed bathroom of one of the two bedrooms. Both kilns stand like magnificent sculpture of this luxurious new Santorini villa which is designed so that each room enjoys the same exceptional views. The symphony of colors of the sea and the sky changes during the day and comes to its peak at sunset time while the combination of local volcano stone and glass offers a unique and luxurious relaxing shelter.
