"Perched on a cliff overlooking Cala Moli, on Ibiza western coast, this stunning contemporary villa provides the best viewpoint from which to enjoy some of the most striking views on the island - a private access to a rocky beach and the sea further connect this unique property to the surrounding seascape".

Built over two floors, this property offers a 180° view of the sea and Illetas, as well as direct access to a small rocky beach via steps carved into the cliff side. The villa architecture is modern and open plan allowing the bedrooms and terraces to take full advantage of the splendid panoramic views. To maximise the views from a variety of different angles, especially at sunset, the villa features many terraces and courtyards. The interior decor is inspired by oriental motifs and contemporary in style. The large living room extends out to a charming patio where the lapping of the fountain mingles with birdsong.
